

# NOMINATION PROCESS AND CRITERIA

Athletes will be selected for nomination either through a Direct Pick or by competing in the SGEA SEA Games 2021 National Selections.

## **Direct Pick**

SGEA works with game title publishers to select the best player or team based on their performance in the publisher's sanctioned tournaments, leagues, events or leaderboard.

For games titles where the best player or team cannot be defined, the selection will default to the winners of the National Selections.

Players or teams who:

- I. have previously been nominated by SportSG, and continue to show sustained/improved performance in the past year,

and/or

- II. have a good track record, and had podium finishes in major competition/s in the past year,

will be considered for direct pick instead of having to go through the National Selections.

## **National Selections**

Winners in each game title will be reviewed for nomination. Where the winning player or team is unable to participate at the 31st SEA Games, the player or team with the next best result will be nominated in their stead.

## Game Titles

Game Title	Selection Process
